The 13th Biennial Corporate Governance Conference (CGC 2022) aims to examine the economic, social and environmental issues that are contributing to the changing risk environment for the governance professionals. Whilst there will be some focus on listed companies, the conference aims to discuss how other entities, be they statutory bodies, non-governmental organisations, social enterprises and private companies can adapt and evolve to find a new purpose in changing times.

As governance professionals play a vital role in providing advice and assisting the board in driving business performance and create resilience, they must take into account areas of the latest developments in applied governance. One of the objectives of the conference is to provide thought leadership from the applied governance perspective to generate an awareness on these global issues.
