Corporate Governance Paper Competition and Presentation Awards 2023

Saturday 16 September 2023
10.00am - 1.00pm

The annual Corporate Governance Paper Competition and Presentation Awards organised by the Institute aims to promote the importance of good governance among local undergraduates. This is a great opportunity for students to learn about teamwork and to research, write and present their thoughts on a selected theme. The topic this year entices applicants to evaluate the question – **"Climate change disclosures – is the world too focused on this topic?"**

Awards

- **Best Paper:** HK\$11,000
The best paper will be published in the HKCGI monthly journal
- **Best Presentation:** HK\$6,000
- **Audience's Favourite Team:** HK\$2,000

... and more prizes

For enquiries, please contact the Qualifications and Assessments Section at (852) 2830 6039 or email: student@hkcg.org.hk.

HKCGI Technology Guidance Note (Eleventh Issue) – An Overview of Managing the Risks and Opportunities & Responsible Deployment of AI Tools

Introduction

Artificial intelligence (AI) has revolutionised how organisations run and interact with their customers across a number of industries. Chat GPT has distinguished itself as a powerful technology among the numerous AI technologies on the market by enabling conversational engagements that resemble human-like dialogues. However, tremendous power also comes with great responsibility, and businesses must understand the dangers and opportunities of using AI. The responsibility of the governance professionals is to assist directors in understanding the risk and opportunities of deploying AI, creating policies and procedures for proper risk management, and ensuring implementation consistent with the business's purpose and values.

Businesses, including Amazon, Google, and Microsoft, have successfully implemented AI tools while following

governance guidelines and constraints. For instance, Amazon has improved the consumer experience using AI powered recommendation algorithms, increasing sales and satisfying customers. Businesses can use AI successfully and responsibly. This guidance note will provide high-level perspectives on the governance professionals' knowledge and communication with boards, including on risk management issues.

Opportunities from AI Use

In terms of some of the opportunities:

- Deploying AI presents opportunities for businesses. Chat GPT and AI can improve the customer experience by offering tailored recommendations, prompt assistance, and effective problem-solving. Companies that properly use AI may strengthen customer relationships, increasing happiness and loyalty.

The Institute's Technology Interest Group members are Dylan Williams FCG HKFCG (Chairman), Ricky Cheng, Harry Evans, Gabriela Kennedy, and Philip Miller FCG HKFCG. Mrs April Chan FCG HKFCG, Institute Past President, is Chairman of the Institute's Technical Consultation Panel with oversight of the Institute's Interest Groups. Makin Daiwan FCG HKFCGPEI, Institute Deputy Chief Executive, serves as the Secretary of the Institute's Interest Groups and author of the guidance note. If you have any comments and/or suggestions relating to the Institute's Interest Groups, he can be contacted at: poohm.daiwan@hkcg.org.hk.

Our latest guidance note on **"HKCGI Technology Guidance Note (Eleventh Issue) – An Overview of Managing the Risks and Opportunities & Responsible Deployment of AI Tools"** has now been uploaded to the Institute's website.
