CS Practical Training: The Essential Elements of a Corporate Compliance Programme

November 2017

**About the programme:**

In today's regulatory environment, it is a challenge for companies to manage corporate compliance efforts effectively. This seminar offers practical guidance on the essential elements of running an effective corporate compliance programme. The speaker will also share good tips on engaging the business and senior management, how to kick-start a compliance programme, manage near misses and infringements as well as ways to share knowledge and sustain a strong compliance culture.
