

January 2021

**About the programme:**

Multinational corporations (MNCs) with subsidiaries in different geographic locations are facing challenges in terms of political environment, rules and regulations, corporate culture, etc. In order to enhance better corporate governance and alignment of business objectives throughout the organization, MNCs and their governance professionals are required to re-visit their own corporate structure, approval authority, segregation of duties, management reporting, etc.

The key areas covered in this seminar would be:

- Definition of Corporate Governance
- Corporate Governance Framework
- Common Challenges in Subsidiary Governance
- Subsidiary Governance Best Practices
